## **INTRODUCING...EZ-ROLL HYDRO™** **NEW!** *H.P. Hydraulic Rollers!*

The world's only needle-free hi-performance hydraulic roller lifters!

Now available by popular demand, HYDRO™ is the newest edition of the patented EZ ROLL™ lifter family, for Chevy Small Block, Big Block & LS-1 V8 Engines: silent running, trouble free H.P. reliable hydraulic rollers!

HYDRO™ features our ever popular "EZ" (EpsilonZX™) advanced solid raceway bushing rollers along with a special "reduced travel" hydraulic roller body to allow for the use of more aggressive hydraulic roller cam profiles and/or higher RPM.

HYDRO™ delivers peace of mind for hydraulic roller racers operating in the extreme loading environments these conditions create with the "extra insurance" of an EZ ROLL™ plane bearing, eliminating the possibility of needle bearing overload failures.
